

## Instructions for Downloading and Installing Eye Tools v1.3

- 1) Open your Internet browser and go to this address:  
<http://www.eyetalk.com.au/eyetools/>
- 2) Click the link called “**Download Installer**”
- 3) A pop-up window may ask if you want to “**Run**” or “**Save**” the file. Click “**Run**” and the download will commence.
- 4) When the download is complete you may see another prompt called “**Security Warning**”. If so, please click “**Run**” again. The *Eye Tools* software poses no security risk to your system and is safe to install.
- 5) You will now see the *Eye Tools V1.3 Installer*. Click “**Next**”, “**Agree**” (to agree to the Terms and Conditions as outlined on-screen) and then “**Install**”. The program will now install to your hard drive. Click “**Finish**” when prompted.
- 6) You can now run the software either by double clicking the icon created on your Desktop, or by clicking:

**Start -> All Programs -> Eye Tools -> Eye Tools v1.3.**

Please note that it may take a few seconds for *Eye Tools* to appear on-screen.

- 7) The first time you run the software you will need to input your **User Name** and **Product Key** when prompted.

If you experience any problems installing or running the *Eye Tools Software*, please **contact support** at [support@eyetalk.com.au](mailto:support@eyetalk.com.au)
